APC's Ride of a Lifetime Challenge

Eight Electrical Contractor Firms will win...will yours be one?

APC wants to accelerate your business—full throttle. With the broadest portfolio of three-phase UPS solutions, APC challenges your electrical contractor firm to find and close APC* three-phase UPS opportunities. In return, you could be ripping down the highway on your own OCC Original production chopper. What are you waiting for?

Take the Challenge at RideWithAPC.com

3 Ways your firm can win

- 1 Register a three-phase APC UPS project
- 2 Close a registered APC three-phase project
- 3 Join APC's Channel Partner Program

Earned Keys for a chance to win an OCC Original production chopper

Contact your APC Account Manager: 1-877-233-8931

APC funds to accelerate your business

\$250 Cash Gift Card per project

\$250 in APC marketing funds per firm

APC's Ride of a Lifetime Challenge closes on June 30, 2010 at midnight EST. There is no limit to the number of keys your firm can earn. The more projects you register and close, the more chances to win!

Partnering with APC by Schneider Electric

Partnering with APC by Schneider Electric offers you the most comprehensive portfolio of UPS solutions in the market. From traditional systems to integrated data center solutions, APC has a full range of products to respond to your customers' specifications. The General Purpose MGE UPS product line is customizable to meet the most demanding specifications—providing you with the lowest cost per kW in the industry. The Performance Symmetra UPS product line provides the standardized, modular building block for APC's InfraStruXure architecture, enabling you to deliver higher availability, lower TCO, and faster cycle times that your customers are demanding.

* Please visit RideWithAPC.com for eligibility requirements and a full list of promotion terms & conditions.

* Includes MGE, Symmetra and Smart-UPS product lines
